Medical Director's Report
Dr. Mark Tucker

**MIDWEST HEALTH PLAN - ATTENTION ALL PROVIDERS
AND EDI SUBMITTERS**

**EDI SUBMISSION UPDATES REGARDING 5010 FORMAT
TO AVOID UNNECESSARY DELAYS PLEASE NOTE EDI
CHANGES/UPDATES**

EFFECTIVE 01/01/2012 - New Payer requirement in 5010 837

Midwest Health Plan has instituted a new requirement in the 837 submission. Currently Service facility location (loop 2310C) is situational and only required when different than Billing Provider Address (2010AA). Midwest Health Plan is making this a required section for all claims except ambulance providers whom should be completing loop 2310E (Pick up location) and 2310F (Drop off location).

EFFECTIVE IMEDEATELY - The Billing provider loop 2010AB must contain your payment address if it is different from your physical address.

Midwest Health Plan has noticed some providers are making changes to their provider address segment in the 837 4010 to remove the PO Box in preparation for the 5010 requirement. However the second step of adding a payment address segment is not being completed and their

claims are not loading. Please remember Midwest Health Plan requires your payment address to match what we have on file in order for your claims to load. This is true for the 4010 and 5010 837's.

Claims Edits Updates

Effective January 1, 2012 Midwest is updating the claims edit system. It will incorporate National Correct Coding methodologies for all our lines of Business to be compliant with the Patient Protection and Affordable Care Act (HR 3590) Section 6507. More Information can be found at www.cms.gov/MedicaidNCCICoding/.

Reimbursement methodologies being implemented:

- 1) NCCI procedure-to-procedure edits that define pairs of Healthcare Common Procedure Coding System (HCPCS) / Current Procedural Terminology (CPT) codes that should not be reported together for a variety of reasons.
- 2) Medically Unlikely Edits (MUE's), units-of-service edits, that define for each HCPCS / CPT code the number of units of service beyond the reported number of units allowed; and
- 3) Global Surgeries, edits that define services furnished within the global period of the surgical procedure billed that should be considered as a component of the global surgical fee.

If a provider believes that an incorrect decision has been made, supporting documentation may be submitted through our appeals process.

PAY FOR PERFORMANCE 2012

Midwest has expanded and increased funding for our Pay for Performance (P4P) Bonus program starting January 2012. The Pay for Performance Grid for Medicaid and MICHild and Medicare is found on our website of www.midwesthealthplan.com in the secure site for Office Managers as well as Providers.

We continue to enhance our "Opportunities Reports" on our website to notify you of the members who are due for bonus payment services so that you can increase your revenue. If you have any questions, please contact your Provider Services Representative:

Linda Chammout #313-586-6013
Nehya Ahmed #313-586-6055
Brian Flemming #313-586-6069

Michigan Center for Effective IT Adoption (M-CEITA)

The Michigan Center for Effective Information Technology Adoption (M-CEITA), based in Ann Arbor, is one of 60 federally-funded Regional Extension Centers (RECs) across the country. M-CEITA is a consortium of 13 health care organizations, facilitated by Altarum Institute, a non-profit health systems research and consulting company.

M-CEITA can provide primary care providers with a variety of services supporting effective IT adoption and use. Services include:

- Vendor selection and group purchasing
- Implementation and project management
- Practice and workflow redesign
- Functional interoperability and health information exchange (HIE)
- Privacy and security best practices
- Progress towards meaningful use

For more information about how M-CEITA can assist your practice in selecting, implementing and integrating information technology in your office visit www.mceita.org , email mceita.info@altarum.org or call 1-888-MICH-HER (1-888-642-4347).

MIDWEST HEALTH PLAN'S WEBSITE

Be sure to visit MHP's website at www.midwesthealthplan.com. Besides getting your member eligibility lists, here you will find information for providers such as our "quick reference guide" that tells you when you need referrals and authorizations, what codes are included in capitation, our appeal processes, our free educational programs for our members, the monthly newsletters, our QI program, QI plan and annual evaluation, pharmacy information, including the formulary and preferred drug list, and even our entire Provider PCP Administrative manual, (this includes our preventive health and clinical guidelines, policies and procedures on confidentiality, member's rights and responsibilities, medical record documentation, fraud/abuse/false claims, safety information on area hospitals, our formulary, formulary updates and pharmacy procedures, affirmative statement regarding UM decision making, etc.). This web site also includes information for our members such as our free educational programs, our policies and procedures and even the entire membership guide/handbook that tells the members what their MHP benefits are! Hope you visit our website. If you would like a hard copy of any of the information on our website, please contact me. Let us know what you think about it. If you have any questions or comments, please call Kathy Harkness at #313-586-6063.

FRAUD AND ABUSE

MHP is committed to conducting its affairs in accordance with all applicable Federal and State laws, regulations, licensing and contract obligations. MHP has developed a Compliance Program to assure that these activities are carried out in a timely and accurate manner. MHP's policies on Fraud and Abuse and False Claims are found on our website www.midwesthealthplan.com. Some examples of member fraud include using someone else's Medicaid card to obtain services, altering a prescription, and using transportation services for purposes other than what is considered a medical appointment. Some examples of provider fraud include falsification of provider credentials, billing for services not provided, up-coding, and underutilization-not ordering medically necessary tests. If you suspect any type of member, MHP employee or provider fraud and abuse, please contact Kathy Harkness, Compliance Official at toll free #1-888-622-8980 or send a letter/memo to Midwest Health Plan 4700 Schaefer Road, Ste. 340, Dearborn, MI 48126 or you may call contact the Programs Investigation Section at toll free #1-866-428-0005 or send a letter/memo to Capitol Commons Center Building

400 South Pine, 6th Floor PO Box 30479, Lansing, Michigan 48909-7979 or call, toll free: 1-866-428-0005

Reporting to any person, department or entity may be done anonymously.

UPDATES: MCIR, VFC, and REPORTING COMMUNICABLE DISEASES

MCIR: You are required to report all vaccines to MCIR. MCIR (formerly the Michigan Childhood Immunization Registry) is now the Michigan Care Improvement Registry. As per your contract with Midwest/Medicaid and per Public Act 91 of 2006, it is required that all immunization providers report childhood immunizations (those administered to persons born 1/1/1994 to present) to the MCIR. If you need information on reporting or access please contact #888-217-3900. Information on MCIR is easily found on their web site of www.MCIR.org. MCIR can also assist you in improving your immunization rates by using MCIR to run batch reports and monthly immunization recall letters.

MEDICAID AND MICHILD ACCESS

As a reminder, Medicaid and MICHILD members may receive services at Federally Qualified Health Centers (FQHC), Rural Health Centers (RHC), Tribal Health Centers (THC), and Child and Adolescent Health Centers (CAHC). A list of these centers is available by calling your Provider Representative. As a reminder,

Women who want to see an OB/GYN doctor for a well woman check up or for pregnancy can make an appointment with any OB/GYN in MHP's network, without a PCP referral. If you need help finding an OB/GYN for your member, call customer service at 888-654-2200.

Your members under 18 years old may see any pediatrician in MHP's network for well child visits without a PCP referral. If you need help finding a Pediatrician for your member, call Customer Service at 888-654-2200.

HEALTH SERVICES:

Great News about Referrals!

In order to serve you and our members better, Midwest has been improving the processes for expediting referrals. If you have sent in a referral and have not heard a response from Midwest within 3 business days, please either resend the referral or contact Janet Greenshields, Director of Health Services at 313-586-6031 or fax of 313-429-5231. Referral processing requires the **REFERRING TO Provider's NPI** number in order to process the referral. This number can be found in the Provider Directory on our website of www.midwesthealthplan.com/Providers/Directories.

Remember to refer to our Authorizations at a Glance Grid as for many services, you **DO NOT NEED A REFERRAL when referring to In-Network Providers.**"

QUALITY IMPROVEMENT

ADULTS WITH BRONCHITIS

This year's HEDIS rate for Avoidance of Antibiotics in Adults with Acute Bronchitis was 18.1% which really means is 81.9% of MHP adult members diagnosed with bronchitis were prescribed antibiotics! Midwest Health Plan endorses the MQIC guidelines for Management of Uncomplicated Acute Bronchitis in Adults. The guideline is provided below to assist practitioners in the assessment, diagnosis, and treatment for acute bronchitis:

May 2010

Michigan Quality Improvement Consortium Guideline
Management of Uncomplicated Acute Bronchitis in Adults

The following guideline recommends assessment, diagnosis, treatment and counseling interventions for the management of uncomplicated acute bronchitis in adults.

Eligible Population	Key Components	Recommendation and Level of Evidence
Adults 18 years or older with clinical suspicion of uncomplicated acute bronchitis	Assessment	<ul style="list-style-type: none"> • Perform thorough history (including tobacco use status [A]) and physical exam • Assess the likelihood of uncomplicated acute bronchitis using the following items: <ul style="list-style-type: none"> - Acute respiratory infection (ARI) manifested predominantly by cough, with or without sputum production lasting no more than 3 weeks - No clinical evidence of pneumonia - Common cold, reflux esophagitis, acute asthma, or exacerbation of COPD have been considered - Consider other diagnoses if cough persists greater than 3 weeks
	Diagnosis	<p>Clinical Information and Testing:</p> <ul style="list-style-type: none"> • Presumed diagnosis of acute bronchitis: <ul style="list-style-type: none"> - ARI and cough with or without sputum production lasting no more than 3 weeks - No clinical evidence of pneumonia - Purulent sputum is not predictive of bacterial infection • Viral cultures, serologic assays and sputum analyses should not be routinely performed [C] • Chest x-ray is not indicated if all of the following are present [B]: <ul style="list-style-type: none"> - Acute cough and sputum production suggestive of acute bronchitis - Heart rate < 100 beats/min - Respiratory rate < 24 breaths/min - Oral temperature < 38° C (100.4° F) - Physical examination lacks findings of focal consolidation
	Treatment	<ul style="list-style-type: none"> • Avoid antibiotics [A] • Symptomatic treatment only. • Beta₂-agonist bronchodilators should not be routinely used to alleviate cough. In select patients with wheezing, treatment with beta₂-agonists bronchodilators may be useful [C] • Antitussive agents can be offered for short-term symptomatic relief of coughing [C] • Mucolytic agents are not recommended (no consistent favorable effect) [D]
	Education and counseling	<p>Educate patient/family regarding:</p> <ul style="list-style-type: none"> • Use of antibiotics is not recommended [A] • Condition is a self-limited respiratory disorder • Inform patient that cough may last for 3 weeks • Rest and increase oral fluid intake • Smoking cessation and second-hand smoke avoidance [C] (<i>See also MQIC Tobacco Control Guideline</i>)

Levels of Evidence for the most significant recommendations: A = randomized controlled trials; B = controlled trials, no randomization; C = observational studies; D = opinion of expert panel
 This guideline lists core management steps. It is based on several sources including the American College of Chest Physicians Chronic Cough Due to Acute Bronchitis: ACCP Evidence-Based Clinical Practice Guidelines, 2005 (www.cheestjournal.org). Individual patient considerations and advances in medical science may supersede or modify these recommendations.
 Approved by MQIC Medical Directors May, 2008; May, 2010 MQIC.ORG

SMOKING & TOBACCO USE SUMMARY REPORT

Each year Midwest conducts the Smoking and Tobacco Use report. Results for the report are obtained from Ceridian, MHP's tobacco cessation program vendor, and from its annual CAHPS member satisfaction survey.

Participants in Ceridian Tobacco Cessation program

Participants	2009	2010	2011	2011 %Enrolled	Ceridian Norm
Enrolled participants at beginning of the program	41	37			

Participants in program after 6 months	17	11			
Participants completing 12 month program	12	9			

Quit Rate for participants in Ceridian Tobacco Cessation program

Quit Rate	2009	2010	2011	2011 % Quit	Ceridian Norm
Participants in program after 6 months	6	5			
Participants completing 12 month program	4	3			

Participants in CAHPS survey

Survey Question	2009	2010	2011
Q38 Advising Smokers and Tobacco Users to Quit	143	154	109
Q39 Discussing Cessation Medication	141	153	135
Q40 Discussing Cessation Strategies	144	155	119

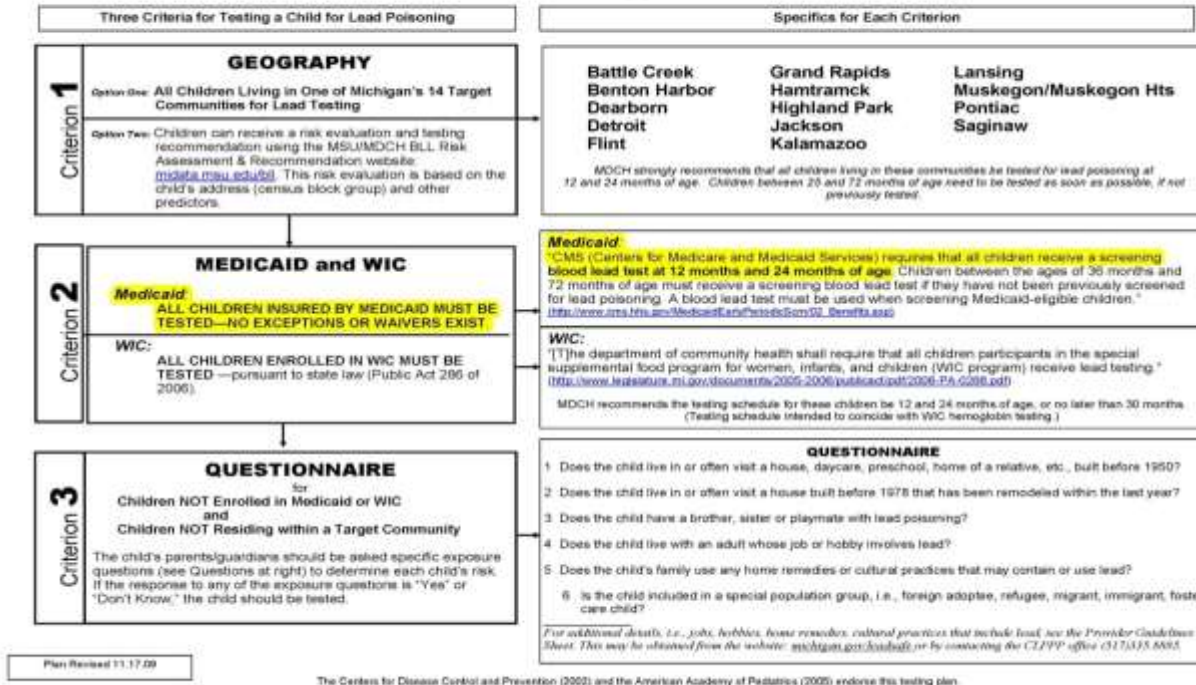

CAHPS Survey Results

Survey Question	2009	2010	2011
Q38 Advising Smokers and Tobacco Users to Quit	71.7%	70.1%	74.3%
Q39 Discussing Cessation Medication	43.2%	47.7%	46.2%
Q40 Discussing Cessation Strategies	39.7%	38.7%	40.3%

LEAD SCREENING

Michigan State law states that all Medicaid-enrolled children, between the age of 12 and 24 months or 36 and 72 months if not tested previously, must have a blood lead test. NO EXCEPTIONS OR WAIVERS EXIST! For more information, please go to the MDCH web site at <http://www.bridges4kids.org/lead/MCDH8-03.html>

Michigan Department of Community Health / Childhood Lead Poisoning Prevention Program
Statewide Lead Testing/Lead Screening Plan

HEALTH MANAGEMENT

Asthma and Diabetes Disease Management Programs

Diabetes Control Network: When enrolled, members will receive information on how to take care of their diabetes. Call **1-313-586-6071** to refer your patient into this program. After joining, the member will be sent information on what diabetes is, how to control blood sugar, taking medications the right way, exercising, eating right, eye and foot care and other important information.

Asthma Focus: When enrolled, members will receive educational information in the mail. To refer your patient into this program, call **1-313-586-6071**. After joining, the member will be sent information on asthma triggers, use of medications, peak flow meter use, an asthma action plan to complete with PCP, information on stopping smoking, and much more.

Controlling High Blood Pressure: High blood pressure is a major risk factor for heart and kidney disease, stroke, and heart failure. High blood pressure is especially dangerous because it often gives no warning signs or symptoms. Hypertension can be treated with medication, diet, and exercise. Please review the *Medical Management of Adults with Hypertension Guideline*, which can be found on our website at www.midwesthealthplan.com.

Glaucoma Screening: Glaucoma is an eye condition that develops when too much fluid pressure builds up inside the eye. This pressure can damage the optic nerve and if left untreated, glaucoma can cause blindness. Because most people with glaucoma have no early symptoms or pain, it is important that persons have a complete eye exam with their ophthalmologist or optometrist regularly. Glaucoma occurs most frequently in adults over age 40. Glaucoma cannot be prevented, but if it is diagnosed and treated early, the disease can be controlled. Please remember to screen your Medicare members (age 67 years or older) each year. Please refer to the *Adult Preventive Services (Ages 50-65+) Guideline*, which can be found on our website at www.midwesthealthplan.com.

Colorectal Cancer Screening

The Michigan Cancer Consortium (MCC) has published guidelines for the Early Detection of Colorectal Cancer. Please remember to screen all members over the age of 50 or those identified in a risk category. Go to www.michigancancer.org/WhatWeDo/ColorectalCancer.cfm to view the guidelines.

Effective Antibiotic Prescribing:

The power to prevent antibiotic resistance is in your hands

CDC has launched the program “Get Smart: Know When Antibiotics Work.” Visit the website at <http://www.cdc.gov/getsmart> Here you will have access to educational tools for parents and children, along with information for providers and pharmacists.

Antibiotics cure bacterial infections, NOT viral infections such as:

- Colds or flu
- Most coughs and bronchitis
- Non-strep sore throats
- Runny noses

Midwest Health Plan educates members about antibiotics to reduce prescription requests for colds, influenza or sore throats. We ask providers to support appropriate antibiotic testing by performing strep tests and not prescribing antibiotics for viral infections. This supports clinical guidelines and National CDC initiatives. To obtain URI and pharyngitis clinical practice guidelines, visit www.midwesthealthplan.com or call the Health Management Department at 313-586-6071.

ROSEBUD® Pregnancy Education Program

Midwest Health Plan would like to remind you of our telephonic case management and education program for pregnant members and their infants. ROSEBUD® is staffed by nurses who specialize in perinatal care and case management.

The Perinatal Case Management program targets women at risk for complications during pregnancy. The program supports the healthcare provider's plan of care as well as provides ongoing education to the expectant mother and her family.

You may refer members to this program, by calling the Health Management Department at 313-586-6071. You may also fill out the Notification of Pregnancy form (attached at end of newsletter) and fax it to **313-827-5694**, Attention: Health Management Department. Thank you for your assistance!

Smoking Cessation Program

Midwest Health Plan's "I Can Quit" Smoking Cessation Program can help members quit smoking. This is a telephone health coaching program. The program includes: five proactive phone calls by a dedicated health coach over a 12 month period. Health coaches offer strategies to increase self-efficacy, identify barriers to change, and provide techniques to cope with and overcome barriers. For more information on our "I Can Quit" Smoking Cessation Program or to refer any of your patients to the program, call **1-313-586-6071**.

Member Incentive for Immunizations

Midwest Health Plan would like to remind you that we offer a \$25 gift card to members who complete all of the recommended immunizations by age 2 and a \$5 gift to members who complete all immunizations by age 13. Members are sent reminder letters and must send Midwest a copy of the completed immunization record to receive the incentive. If you have any questions about our immunization incentives, please call the Health Management Department at (313) 586-6071.

Alliance for Immunization in Michigan (AIM)

The AIM Provider Immunization Toolkit for Children & Adults is a resource guide containing the most current standards of practice, forms, and vaccination methodologies for immunizations in Michigan. To order/view the kit, visit the AIM website at, www.aimtoolkit.org.

Midwest Health Plan offers affordable, easy-to-use healthy living benefits!

Midwest Health Plan has teamed up with Weight Watchers® to offer our members a program that more physicians have recommended to their patients than any other weight loss plan. With nearly 1,000 meetings held throughout the franchise area, members will be able to find a meeting that is convenient for them. Midwest members can purchase a 12 week Weight Watchers PASS for \$150 (a 25% savings off the published price) by just showing their Midwest Health Plan Member ID card at participating meeting locations. For more information or to find a meeting place call 1-888-3Florine or go to <http://www.888-3-florine.com/midwest.php>.

SCREENING FOR DEPRESSION

Primary Care practitioners play an important role in screening for and treating depression. Midwest Health Plan recommends the use of **PHQ-9 Questionnaire** as a depression screening tool. The Tool is available online as part of the MacArthur Initiative on Depression & Primary Care at Dartmouth and Duke at:

<http://www.depression-primarycare.org/clinicians/toolkits/materials/forms/phq9/>.

You will find useful information and a Depression Management Tool Kit on their website that includes the following:

- Recognition and Diagnostic Information
- Patient Education Materials
- Treatment Information
- Monitoring and Follow-up Information
- Bibliography

Please remember to screen for depression in asthmatic, diabetic and post-partum patients and refer patients for behavioral health services if needed. You can find behavioral health providers in the Midwest Provider Directory which is online at www.midwesthealthplan.com. If you have questions about the depression screening tool, please call the Quality Improvement Department at 313-586-6077.

PROVIDER SERVICES

Midwest Health Plan will be having the next Primary Care Provider Meeting on February 22, 2012 beginning at 6 p.m. at The HENRY hotel in Dearborn. The invitation is at the end of this newsletter. We look forward to seeing you there!

PCMH Bonus

Over the past three years, Midwest Health Plan has been encouraging Providers to adopt the elements of a Patient Centered Medical Home (PCMH). In addition to the Provider Meetings and the one on one education sessions, Midwest is reminding Providers of our PCMH bonus program. This bonus program was discussed at one of our previous provider meetings and has been in our newsletter, but as the time draws nearer to submit information to Midwest, this is a reminder of the requirements for the bonus. The criteria for the bonus is attached. Since Midwest is not participating in MiPCT, this bonus is for providers with a minimum of 100 MEDICAID members with Midwest.

To suffice as meeting the criteria, please refer to the columns that say Criteria and Verification/Provider Responsibility in the Scoring grid attached. Kathy Harkness will come out to your office to verify the criteria, or you can mail, email or fax the information by March 1, 2012 to: Kathleen Harkness, RN, MSHA, CPHQ
Midwest Health Plan

Quality Improvement Department
 4700 Schaefer Road, Ste. 340
 Dearborn, MI 48126

Phone: 313-586-6063 Fax:313-827-5694 or email [to kharkness@midwesthealthplan.com](mailto:kharkness@midwesthealthplan.com)

**PCMH Bonus Program
 2011-2012**

Midwest Health Plan has developed a strategic plan to encourage implementation and active use of an electronic registry that captures key demographic and clinical information for all patients in the practice with a selected condition or to track selected preventive services. Payments are made to the Tax ID. High volume is defined as providers with ≥ 100 Medicaid members as of 12/31/11.

Topic	Target Date/Frequency	Method of identification	Incentive-Bonus
1.High volume Providers who have Purchased a Patient registry	Implement a patient registry in 2011 or 2012	Signed agreement submitted to MHP as proof	One time payment of \$400 based on proof submitted in 2011 or 2012
2.High Volume Providers that implement, populate and demonstrate use of registry-clinical information, population management	In 2011 /2012 use patient registry to capture key demographic patient data with ongoing use of registry to conduct outreach for preventive services and population management	Submit evidence that registry is being used for key demographic information for all members in practice. Practices must submit evidence that registry is being used for reminder/recall and care management. QI conducts assessment for proof of ongoing use.	\$1.50ppm to be paid based on successful completion and use of registry. Membership numbers will be based on enrollment as of 12/31/11. Payments to start 1/1/12*.

*Payments will start the month following your successful completion and submission of the above requirements. Payments can start as soon as 1/1/12.

FREE
GLUCOMETER PROGRAM

ATTENTION PROVIDERS:

Midwest Health Plan (MHP), along with Bayer Healthcare will provide glucometers **FREE** of charge to our diabetic members. Attached is the form that must be completed in order to receive the **FREE** glucometer. You do not have to complete a MHP referral form, only the attached form.

There are two types of glucometers available, the **Bayer Breeze 2** and **Bayer Contour**. In addition to the glucometer, a **FREE** instructional DVD can also be requested. The glucometer can be shipped to your office for the member to pick up, or mailed directly to the member's home. Once the form is received by Bayer Healthcare, it takes approximately 3 business days for the glucometer to be delivered.

Because diabetic supplies (i.e. alcohol swabs, lancets, and test strips) are billed under the prescription drug benefit, your patient will need a prescription to take to the pharmacy for those items.

If you have questions regarding this program, please call Customer Service at 888-654-2200.

WIN CANDY

Your office will have the chance each month to win a free box of candy. All you have to do is answer the questions toward the last page of the newsletter and fax the page to us at **313-827-5694**. If your answers are correct, the candy will be mailed to your office. Please refer to our website at www.midwesthealthplan.com for the list of winners. **If you do not answer the questions correctly, you will not receive the candy.** So keep up the good work and keep responding. If you're not participating, you should. It's quick and easy and all you have to do is read the newsletter and answer the questions. Please try it. **Congratulations** to those offices who responded correctly. We hope you are enjoying the candy! The **December** office winners include.

- **Hollywood Pediatric Clinic**
- **M Arrington, Childrens Hospital of Michigan**
- **Kamala Vanaharam, M.D.**
- **My Family Doctor, Southgate**
- **Madan Gupta, Southfield**
- **Marcia Vanderbroek**
- **Warrendale Care**
- **Stephen Swetech, DO**
- **Grosse Pointe Farms Family Physicians**

JANUARY 2012 CANDY CONTEST

1. What is the effective date for the new payer requirement regarding the new 5010 format?
2. **True or False** As discussed at our PCP administrative meeting in November, Midwest Health Plan has developed a strategic plan to encourage implementation and active use of an electronic registry that captures key demographic and clinical information for all patients in the practice with a selected condition or to track selected preventive services.
3. Antibiotics cure bacterial infections, NOT viral infections such as:

4. **True or False** Michigan State law states that all Medicaid-enrolled children, between the age of 12 and 24 months or 36 and 72 months if not tested previously, must have a blood lead test.

Your Name: _____
From the office of Doctor: _____ **PIN** _____
Office Site Name: _____
Phone Number: _____

Answers December 2011 Candy Contest

1. M-CEITA can provide primary care providers with a variety of services supporting effective IT adoption and use. Name three services.

Vender selection and group purchasing

Privacy and security best practice

Progress toward meaningful use

2. **True** Referral processing requires the **REFERRING TO Provider's NPI** number in order to process the referral. This number can be found in the Provider Directory on our website of

www.midwesthealthplan.com/providers/directories

3. The Michigan Cancer Consortium (MCC) has published guidelines for the Early Detection of Colorectal Cancer. Please remember to screen all members over the age of **__50__** or those identified

4. Midwest Health Plan will be having the Primary Care Provider Meeting on **Wednesday**, _____, **2011** beginning at 6 p.m. at The _____ hotel in Dearborn.

Trick question, there is no meeting information for December.

January 12, 2012

Dear Primary Care Physician:

Midwest Health Plan cordially invites you to attend the Provider Meeting on:

Wednesday, February 22, 2012 from 6 P.M. to 8 P.M. at **The HENRY Hotel Dearborn** located at **300 Town Center Drive, Dearborn, Michigan 48126, 313-441-2000**. Dinner will be served promptly at 6 P.M.

Please complete the following information and return by fax to **313-827-5694**.
PLEASE NOTE THIS MEETING IS FOR PHYSICIANS ONLY.

NAME (please print) _____

OFFICE NAME / PIN NUMBER _____

TELEPHONE # _____ *FAX #* _____

Midwest Health Plan appreciates your attendance, therefore if you stay until the conclusion of the meeting and sign out, you will receive a stipend. **Please note we will pay one \$100.00 stipend per contracted tax identification number.**

We look forward to seeing you there!

Sincerely,

Midwest Health Plan
